

Crono Designs

Christophe Poly:

Christophe Poly creates his jewelry collections from an architectural approach, using materials such as aluminum, brass, acrylic, leather and rubber. Christophe has been combining unique materials to create innovative jewelry and objects from his studio since 1989. In his work every small part blends in a complex and ingenious construction method. All of the posts and earwires are hypoallergenic. No special attention is necessary to preserve the beauty of the jewelry. No chemical product should be used to clean it, just use a wet or dry cloth when necessary.
